“TO PROVIDE CHEMICAL DEPENDENCY  
TREATMENT TO INMATES IN THE LAKE  
COUNTY JAIL, HELPING THEM TO  
DEVELOP SKILLS NECESSARY TO  
MAINTAIN THE ONGOING PROCESS OF  
RECOVERY”

Daniel A. Dunlap, Sheriff  
***Governing Authority***

Lawrence Smith, Jr. ***Program Director***

Chief Frank Leonbruno, **Chief Deputy**  
Chief Craig Berry, **Chief Probation Officer**  
Jerry Retter, **Asst. Chief Probation Officer, Client Rights Officer**  
Captain Cynthia Brooks, **Jail Administrator**

# HISTORY

On August 2, 1993 six inmates were transferred from their respective living quarters in the Lake county Adult Detention Facility to M2, a range located in the Work Release area of the jail (Better Known As “The M-Zone”). Each of these inmates was incarcerated as a result of an offense related to their consumption of alcohol or other drugs. Their sentencing judges and probation officers felt they were in need of treatment for the addictions that continued to cause them trouble. Four of the six men had treatment for chemical dependency in their pasts, but no longer possessed the resources to access treatment at this point in their lives.

The events of August 2, 1993 represented the culmination of years of effort and collaboration that went into the creation of the Lake County Sheriff’s Office Jail Treatment Program (JTP). It would not have happened without critical contributions from the Lake County Commissioners, the Lake County Courts of Common Pleas and its Adult Probation Department, the Municipal Courts of Lake County and their Probation Departments, the Lake County ADAMHS Board, and Lake County Sheriff Daniel A. Dunlap and his staff. In addition, the JTP was enabled to provide services to clients under the auspices of the Lake Geauga Center on Alcoholism and Drug Abuse, Inc. until it became a state-licensed program in its own right.

The first year of operation saw 160 clients admitted to the JTP. A hallmark event of that first year was the program’s licensure by the Ohio Department of Alcoholism and Drug Addiction Services (ODADAS) as a provider of Intensive Out-Patient treatment for chemical dependency in May of 2004. In November of 1994, the program admitted its first female client, representing a significant policy shift for the jail, in that male and female inmates were interacting in the same program. This policy shift enabled a huge gap — that is, service provisions for incarcerated women — to be closed.

In 1996 the Jail Treatment Program found a new home within the Lake County Adult Detention Facility when the program moved from range 2M2 to range 2B. This move allowed for more space and an environment more conducive to conducting treatment groups and counseling sessions. The “treatment range” 2B houses 24 males. Male participants are segregated from the general male population. The female participants in treatment are housed with other general population females, but range 2H has been dedicated to house the women who participate in the treatment program.

In May of 1997 the Jail Treatment Program solicited funding for an additional counselor. The proposal called for the Lake County ADAMHS Board to advance sufficient funds to the Jail Treatment Program to hire an additional counselor. The Board would be reimbursed by the Indigent Alcohol Driver Treatment Fund (IDATF) as indigent offenders were admitted to the program. Painesville, Willoughby, and Mentor Court judges all submitted letters of commitment and support for the proposal. The cooperation of the Lake County municipal Courts in this endeavor enabled us to grow as a program and provide treatment for up to 33% more chemically dependent offenders each year.

In 2000 JTP Clinical Supervisor Jerry Retter took a new position as the Program Coordinator for the Minimum Security Facility Project. Following that transition Larry Smith replaced Jerry as the programs Clinical Supervisor at which time Sue Teague was hired as a counselor in June of 2000. In 2003 Dave Bowins, who worked as a counselor for the program since its inception left to further pursue his career at North Coast Counseling Center. Donald Kelly was hired to fill the counselor vacancy. In 2006 counselor Shelly Queen retired to Columbus, Ohio, her vacancy was filled by Constance Ness. In 2007 Donald Kelly returned to Florida. Karen Winslow replaced Don in July 2007. Kathy Silvi, who is a Sergeant for the Lake County Adult Detention Facility and a long term county employee, has worked with the program since its inception, originally as the program director and several years as a chemical dependency counselor before retiring. Gretchen Sines was hired near the end of 2008 as a part time secretary utilizing IDATF monies. In 2010 Gretchen resigned. In 2011 Sgt. Kathy Silvi retired after over 30 years of service for the county. Also in 2011 Karen Winslow resigned and continued her career at Lake-Geauga Recovery Centers. David Kern replaced Karen as a chemical dependency counselor in September 2011. Due to lack of funding and budget cuts in 2011 we were not able to replace our support staff and one CD counselor. We operated at diminished capacity until the Lake County ADAMHS agreed to increase our funding so that we could reinstate a full time counselor. This additional funding enabled us to return to servicing our maximum number of clients. In 2012 the program hired Carl Hivner and Elizabeth Wellman, who were only with us a very short time. Tina King and Kimberly Erb were hired in 2012. See their profiles on the next page.

# **STAFF PROFILE 2013**

**Suzanne Teague** - Sue joined the counseling staff of the JTP in June of 2000. Sue came to us from Forbes House where she worked for five years as a counselor with victims of domestic/family violence, and children's groups. She also worked for Western Reserve Counseling where she performed group and individual counseling, anger management and sexual abuse groups. Sue's credentials include Master of Education in Community Counseling, LPC and LCDC III.

**Current**

**Constance Ness** - Constance joined the staff in February of 2006. She filled a full time chemical dependency counselor position. Constance came to us from Laurelwood Hospital where she worked for several years. Constance has experience in working with chemically dependent male and females clients in a variety of settings including hospital, residential and out-patient settings. Constance's credentials include Associate of Arts Degree and LCDC II

**Honorable Mention:** Constance was the recipient of the 2007 Lake Geauga Recovery Centers Female ***Volunteer Of The Year*** Award.

**Current**

**Tina King** - Tina joined the staff in June of 2012. She filled a full time chemical dependency counselor position. Tina came to us from Bridgeway in Cleveland, Ohio where she worked for five years in the field of Substance Abuse. Tina's credentials include Bachelor of Arts Degree in Social Work which she earned in 2009 from the University of Akron and she earned her LCDC III in June of 2010.

**Current**

**Kimberly Erb** - Kim joined the staff in November of 2012. She filled a full time chemical dependency counselor position. This is Kim's first job in the field of Chemical Dependency treatment. Kim recently earned a Bachelor of Science Degree from the University of Cincinnati College of Education, Criminal Justice and Human Services. She obtained her CDCA in June 2011 and is working toward upgrading to LCDC III license.

**Current**

**Lawrence Smith Jr.** - Larry started working with the JTP in July 1993. Larry began working professionally with chemically dependent men in 1988. Prior to that Larry worked with mental health consumers in a residential/crisis unit setting. He came to the JTP from Lake-Geauga Center's Lake House Men's Half-way House where he worked for five years. Larry is a graduate from Cleveland State University's school of social work. Larry's credentials include Bachelor of Arts degree and LICDC. Larry is currently the Program Director/Clinical Supervisor for the JTP.

**Current**

# **PROGRAM PROFILE**

**Program Description:** The Jail Treatment Program was developed in response to the needs of the Criminal Justice System. For Lake county judges and probation officers, it provides structured intensive chemical dependency treatment for clients in a setting where abstinence is insured. It also provides a unique opportunity to mete out logical consequences for crimes while simultaneously addressing the root cause of those crimes. For those offenders who have failed to successfully arrest their addiction through less restrictive means, the Jail Treatment Program provides a logical and cost effective alternative.

Prospective participants of the program are carefully assessed by a State Certified Chemical Dependency Professional in order to ensure their eligibility and appropriateness for admission. These assessments occur during the inmates incarceration and culminate in a staffing where the treatment team decides on a candidates' admission.

It is important to note that participants of the Jail Treatment Program are held accountable to the same rules as the general jail population. Participation in the program will not be "easy time," nor will clients receive special privileges over and above the opportunity to avail themselves of treatment. The Jail Treatment Program uses the inherent pain of loss of one's freedom to motivate an individual's examination of what exactly needs to change in his or her life.

Each client entering the program will do so voluntarily. Clients will be enrolled into the MACSIS data health care plan and will contract an initial treatment plan addressing a goal and objectives applicable to all eligible participants. Additional and more individualized treatment plans will be provided and developed by the clients assigned primary counselor. Individualized treatment plans will be developed within 10 days of the clients admission to treatment. Treatment planning is done in collaboration with the client which identifies problems that present barriers to ongoing recovery along with measurable objectives which assist clients in overcoming problems in order to achieve treatment goals.

All participants attend didactic presentations, in the form of lectures and films on the disease of chemical dependency , recovery and other related topics no less than five (5) days per week. Clients also receive group therapy sessions at least three (3) days per week.

Individualized therapy/counseling sessions are conducted on an as needed basis and as prescribed in individualized treatment plans, but no less than once weekly. Clients are also exposed to members of the twelve step community on a regular basis. Volunteers from AA/NA support groups lead discussions on recovery related topics and share their experiences with the clients.

During the final week of treatment, clients are assisted by the counseling staff to develop clinically sound continuing care plans. Recommendations and the rationale for them are communicated to clients, and the staff assists in arranging a smooth transfer to appropriate programs, activities and level of care. The counselors provide updates and discharge summaries to the referring courts and community agencies.

# **PROGRAM PROFILE (CONT.)**

**Hours of Programming:** The Lake County Sheriff's Office Jail Treatment Program hours of operation are Monday through Friday 7:30AM—3:30PM.

**Group Counseling Sessions:** Monday, Wednesday and Fridays. Approximately six hours a week per client.

**Individual Counseling Sessions:** Scheduled at various times throughout the week. Approximately 3/4 hour per week per client. More time is as needed based on client need and counselor discretion.

**Lectures:** Daily Monday through Friday. Approximately five hours per week per client.

**Films:** Tuesday and Thursday. Approximately two-four hours per week per client.

**Case Management & Crisis Intervention services as needed**

**Average Duration of Consumer Involvement:** The average duration of client involvement in the Jail Treatment Program is (28-30) days.

**Outcome Goals:** The outcome goals of the Jail Treatment Program are: (1) To reduce recidivism related to chemical dependency and related behaviors by a minimum of 60% in the Lake County Adult Detention Facility. (2) To provide quality chemical dependency treatment to inmates incarcerated in the Lake County Adult Detention Facility. At an economical cost to clients, the criminal justice system, and the community. (3) To link clients to services and programs that will increase their chances of recovery and help them maintain the ongoing process of recovery through effective continuing care planning, including twelve step programs involvement, outpatient and/or residential treatment, mental health services, anger management and other community based rehabilitation programs. (4) To educate clients about their disease of chemical dependency and what recovery entails in order to increase hope and motivation for abstinence and long-term recovery.

# CLIENT PARTICIPANT PROFILE (2013)

(Based on 382 total participants 2013)
